July 2021

Kalas is committed to maintaining the restriction thresholds of the substances in the EU RoHS Directives (2011/65/EU) and ((EU) 2015/863). Kalas is compliant without exemptions. These directives are intended to help protect the environment and consumers from known hazardous substances in a wide range of electrical and electronic equipment.

Effective July 2021, Kalas will begin removing references to “RoHS” from individual wire descriptions and the print legend of wire and cable products. Alternatively, Kalas will continue to make our RoHS declaration accessible to all customers via our website (to access, copy and paste the URL address into your browser https://www.kalaswire.com/wp-content/uploads/ROHS_Customer_Letter2021_1-25-21.pdf), or by contacting your Account Management representative.

We will continue to maintain the restriction thresholds under these Directives:

Original 6 substances (2011/65/EU):

- Lead(Pb) : 0.1%
- Mercury: 0.1%
- Cadmium(Cd): 0.01%
- Hexavalent chromium (Cr6+) : 0.1%
- Polybrominated Biphenyls (PBB): 0.1 %
- Polybrominated Diphenyl Ethers (PBDE): 0.1 %

Additional 4 substances ((EU) 2015/863):

- Bis(2-Ethylhexyl) phthalate (DEHP): max 0.1%
- Benzyl butyl phthalate (BBP): max 0.1%
- Dibutyl phthalate (DBP): max 0.1%
- Diisobutyl phthalate (DIBP): max 0.1%

Please contact your Sales Representative with any questions you have regarding how this impacts your wire and cable program. Thank you for your ongoing partnership and the ability to support your business!
